

# Paper Dryer Inspections and Nondestructive Examinations

Kadant Johnson Services offers inspections and nondestructive testing (NDT) in paper applications per TAPPI TIP 0402-16. In addition to the TAPPI TIP guidelines, Kadant Johnson Services has supplemental inspection criteria, standard reporting procedures, and certified personnel with the specialized knowledge and experience for safe, reliable, and expert inspection.

Maintaining steam and condensate equipment per TAPPI guidelines requires specialized knowledge and experience. Kadant Johnson Services inspections ensure that your paper dryer is maintained to the highest standard. Kadant Johnson Services provides a prioritized list of opportunities and partners with customers to implement solutions after the inspection is complete.

Kadant Johnson Services also provides dryer equipment installation and repair, along with dryer exterior surface cleaning.

From routine repairs to major dryer section rebuilds, if your plans include inspecting, repairing, or installing dryer equipment, include Kadant Johnson Services in your planning.

## Overview

### Features

- Inspections of dryer drainage equipment
